OBJECTIVE

Seeking a challenging position in the field of cybersecurity and management information systems (MIS), where I can apply my comprehensive understanding of information systems and project management to enhance organizational security measures. Committed to implementing innovative solutions that safeguard critical assets, optimize operational processes, and ensure the seamless integration of technology for sustained business excellence.

CORE COMPETENCIES

- Python Programming
- Security Information and Event Management (SIEM) tools
- Intrusion Detection Systems (IDS)
- Team Collaboration and Project Coordinator
- Continuous Improvement and Process Optimization
- Strong Communication and Interpersonal Skills
- Technical Troubleshooting and Problem-Solving
- Information Security Analyst
- Junior Cybersecurity Analyst
- Hardware and Software Installation and Maintenance
- IT Infrastructure Management
- IT Security and Data Protection
- Information Systems Management
- Risk Management
- Incident Response
- Technical & Business Report

Education

Associate in General Studies

- Allen County Community College
- GPA: 2.96
- Transferred to

Bachelor of Science, Management Information Systems

- Texas Southern University, Houston, TX 77004
- GPA: 3.1

PROFESSIONAL EXPERIENCE

UNITED PROTECTIVE SERVICES – SECURITY SERVICES | 2023 – Present

- Patrol and Monitor: Regularly inspect and monitor assigned areas to deter unauthorized access and detect security threats.
- Access Control: Verify and control access to premises, ensuring only authorized personnel enter.
- Security Reporting: Document incidents, breaches, and safety hazards, and report them to the appropriate authorities.
- Emergency Response: Respond swiftly to security breaches, alarms, or emergencies, and take appropriate actions.

Mastercard Cybersecurity Virtual Experience Program on Forage

- Completed a job simulation where I served as an analyst on Mastercard's Security Awareness Team
- Helped identify and report security threats such as phishing.
- Analyzed and identified which areas of the business needed more robust security training and implemented training courses and procedures for those teams.

Datacom Cybersecurity Job Simulation on Forage

- Completed a simulation focused on how Datacom's cybersecurity team helps protect its clients.
- Investigated a cyberattack and produced a comprehensive report documenting findings and outlining key recommendations to improve a client's cybersecurity posture.
- Conducted a comprehensive risk assessment.

JPMorgan Chase & Co. Job Simulation on Forage

- Analyzed a large dataset of fraud in financial payment services.
- Learned about application security fundamental and put it to use on your own website.
- Spam or Ham? Build an email classifier.
- Design and develop a system to tighten access to sensitive information.

TECHNICAL PROFICIENCIES

- **Programming Languages:** Python, Linux, and SQL.
- **Web & UI Technologies:** JavaScript, HTML, and CSS
- **Version Control:** GitHub
- **Databases:** MySQL

AWARDS AND HONORS

- Google – Google Cybersecurity
- Microsoft - Cybersecuirty Professional
- IBM – Cybersecurity Compliance Framework & System Administrator
- IBM – IBM Cybersecurity Analyst
- IBM – Security Zero Trust Principle
